Evaluation Foundations - TEI | The Evaluators' Institute

According to Shadish, Cook, & Leviton (1991), the fundamental purpose of evaluation theory is to specify feasible practices that evaluators can use to construct knowledge about the value of social programs. This explanation of evaluation theory consists of five main components: practice, use, knowledge, valuing, and social programming.

Evaluation Theory and Practice | American University Online

- Program evaluation studies have been strongly influenced by reductionist theory, which attempts to isolate individual program components to determine associations with outcomes.

Ann W Frye Paul A Hemmer - Marshall University

Nationally, Mr. Gasper co-chairs both the Nonprofit & Foundations and the Program Theory & Theory-Driven Evaluation Topic Interest Groups for the American Evaluation Association as well and works with other foundations and nonprofits to understand and improve their strategic use of evaluation.

by Julia Alvarez, Research Associate at JVA Two JVA team members were in attendance last Thursday afternoon at the Colorado Nonprofit Association's Fall Conference in downtown Denver, where the luncheon panel focused on nonprofit program evaluation. Representatives from the evaluation departments of the Colorado Health Foundation, The Colorado Trust and the Gay and Lesbian Fund [...]

Foundations stress the importance of evaluation - Joining ...

Program evaluation defined. At the most fundamental level, evaluation involves making a value judgment about information that one has available (Cook 2010; Durning & Hemmer 2010). Thus educational program evaluation uses information to make a decision about the value or worth of an educational program (Cook 2010).

Program evaluation models and related theories: AMEE Guide ...

Outcome and Impact Assessment. Instructor: Mark W. Lipsey, PhD Description: Valid assessment of the outcomes or impact of a social program is among the most challenging evaluation tasks, but also one of the most important. This course will review monitoring and tracking approaches to assessing outcomes as well as the experimental and quasi-experimental methods that are the foundation for ...
