Painting A Target On Hpv

Painting a Target on HPV is an evidence-based, detailed exploration of everything that is known about the human papillomavirus--the virus that causes cervical cancer. With an emphasis on non-surgical treatment, Dr. Nicholas LeRoy imparts twenty years of experience in treating and researching HPV and cervical dysplasia.

Painting a Target on HPV: Dr. Nick's Natural Treatment for ...

Painting a Target on HPV. Conventional medicine claims there is no treatment for HPV and that loop electrosurgical excision procedure (LEEP) and conization surgery are the only treatments for cervical dysplasia. In Painting a Target on HPV, women's health specialist Dr. Nick LeRoy reveals decades of evidence to the contrary, effectively challenging the OBGYN standard of care.

Painting a Target on HPV | Cervical Dysplasia Treatment ...

Painting a Target on HPV (2015) by Dr. Nick Leroy is a welcome publication in the field of research on this virus. Much of what has been written on HPV for the non-medical reader (who is likely searching out this information because of an HPV-positive diagnosis) is either too scientific to be understandable or too anecdotal to be helpful. Dr.
