Control connected fans from anywhere using Wi-Fi, an internet connection and the free My Leviton app; that is all you need, no hub required. Simplify control of the residence - schedule connected devices to turn on/off at specific times or based on sunrise/sunset, easily group smart products into rooms, and create scenes to activate multiple lights, fans, and loads at once.

Decora Smart 4 Speed Fan Controller - Leviton

Quick Lesson 1: How do wireless headphones work for TV? To establish a wireless connection between the TV and your wireless headphones requires just two components:. A wireless transmitter; A wireless receiver; The transmitter sends digital audio signals over to the receiver which in turn converts them into analog signals (sound) that you hear in the headphones.
