so, how much? What types of people are most likely to develop breast cancer?

Research Design and Scales of Measurement

The research methods you use depend on the type of data you need to answer your research question. If you want to measure something or test a hypothesis,

Download Free Tests Measurements And Research Methods In Behavioural Sciences

use quantitative methods. If you want to explore ideas, thoughts and meanings, use qualitative methods. If you want to analyze a large amount of readily-available data, use secondary data.

This measure would be internally

Download Free Tests Measurements And Research Methods In Behavioural Science

consistent to the extent that individual participants' bets were consistently high or low across trials. Like test-retest reliability, internal consistency can only be assessed by collecting and analyzing data. One approach is to look at a split-half correlation. This involves splitting the items into two sets ...
