Bermuda Media

An analysis of 108 Super Bowl commercials showed that the structure of the ad, more than its content, was what determined its success with viewers. It found the most popular ads were the ones that told stories using Freytag's Pyramid, a structure including climax and resolution that can be traced back to Aristotle and was mastered by Shakespeare.

There has been perennial interest in personal qualities other than cognitive ability that determine success, including self-control, grit, growth mindset, and many others. Attempts to measure such qualities for the purposes of educational policy and practice, however, are more recent. In this article, we identify serious challenges to doing so.
