Twin Cam Engine Specs

The Harley-Davidson Twin Cam are motorcycle engines made by Harley-Davidson from 1998 to 2016. Although these engines differed significantly from the Evolution engine, which in turn was derived from the series of single camshaft, overhead valve motors that were first released in 1936, they share a number of characteristics with nearly all previous Harley-Davidson engines.

1966–2000. Designed by Aurelio Lampredi the Fiat Twin Cam(also known as the Lampredi Twin) was an advanced inline-four automobile engine produced from 1966 through 2000 as a Fiat/Lancia engine until it was replaced by the "family B" series of engines. The engine shares a lot of parts and most dimensions with the pushrod Fiat 124 series engine (later also available with an overhead camshaft).
